MUHAMMAD ABDULLAH

FULL-STACK DEVELOPER

Lahore, Pakistan | ohawanaofficial@gmail.com | +92 326 0778028 | linkedin.com/in/m-abdullah-awan-520715398 | github.com/OhAwanaOfficial

SUMMARY

Final-year Software Engineering student at The University of Lahore and full-stack developer who builds and deploys web apps with Next.js, React, TypeScript and Supabase. Freelancing since 2025, delivering 3D models to direct clients, with hands-on SEO experience and five projects live on the web.

EXPERIENCE

Freelance 3D Model Specialist 2025 – Present

Self-employed · Remote

- Deliver 3D models built to each client's brief, finding and managing clients directly through social media.
- Generate base models with AI 3D tools, then clean up and convert them into the formats clients need.
- Handle the whole job myself: requirements, revisions and final delivery.

PROJECTS

PostCraft AI — LinkedIn Post Generator | Next.js, TypeScript, Supabase, Clerk 2026

An AI tool that writes LinkedIn posts for founders, marketers and creators. Live on Vercel. Rebuilt from a static page into a full-stack app with sign-in.

APA Citation Generator | JavaScript, HTML, CSS, SEO 2026

A free, browser-based tool that formats APA citations, built to rank in search. Formats books, websites and journal articles. Keyword-targeted guide pages, sitemap and robots.txt.

SKILLS

Languages	JavaScript, TypeScript, Python, Java, C++, HTML, CSS
Frameworks	React, Next.js, Vite
Backend & Auth	Supabase, Clerk
Tools & Other	Git & GitHub, Vercel, GitHub Pages, SEO, AI 3D generators, Blender (basic)
